SUBCHAPTER I—TRADE POLICY FOR SUB-SAHARAN AFRICA

§ 3701. Findings

Congress finds that—

(1) it is in the mutual interest of the United States and the countries of sub-Saharan Africa

to promote stable and sustainable economic growth and development in sub-Saharan Africa;

(2) the 48 countries of sub-Saharan Africa form a region richly endowed with both natural and human resources;

(3) sub-Saharan Africa represents a region of enormous economic potential and of enduring political significance to the United States;

(4) the region has experienced the strengthening of democracy as countries in sub-Saharan Africa have taken steps to encourage broader participation in the political process;

(5) certain countries in sub-Saharan Africa have increased their economic growth rates, taken significant steps towards liberalizing their economies, and made progress toward regional economic integration that can have positive benefits for the region;

(6) despite those gains, the per capita income in sub-Saharan Africa averages approximately \$500 annually;

(7) trade and investment, as the American experience has shown, can represent powerful tools both for economic development and for encouraging broader participation in a political process in which political freedom can flourish;

(8) increased trade and investment flows have the greatest impact in an economic environment in which trading partners eliminate barriers to trade and capital flows and encourage the development of a vibrant private sector that offers individual African citizens the freedom to expand their economic opportunities and provide for their families;

(9) offering the countries of sub-Saharan Africa enhanced trade preferences will encourage both higher levels of trade and direct investment in support of the positive economic and political developments under way throughout the region; and

(10) encouraging the reciprocal reduction of trade and investment barriers in Africa will enhance the benefits of trade and investment for the region as well as enhance commercial and political ties between the United States and sub-Saharan Africa.

AGOA ACCELERATION

Pub. L. 108-274, July 13, 2004, 118 Stat. 820, as amended by Pub. L. 108-429, title II, § 2004(j)(1), Dec. 3, 2004, 118 Stat. 2595, provided that:

“SECTION 1. SHORT TITLE.

“This Act may be cited as the ‘AGOA Acceleration Act of 2004’.

“SEC. 2. FINDINGS.

“The Congress finds the following:

“(1) The African Growth and Opportunity Act [19 U.S.C. 3701 et seq.] (in this section and section 3 referred to as ‘the Act’) has helped to spur economic growth and bolster economic reforms in the countries of sub-Saharan Africa and has fostered stronger economic ties between the countries of sub-Saharan Africa and the United States; as a result, exports from the United States to sub-Saharan Africa reached record levels after the enactment of the Act, while exports from sub-Saharan Africa to the United States have increased considerably.

“(2) The Act’s eligibility requirements have reinforced democratic values and the rule of law, and have strengthened adherence to internationally recognized worker rights in eligible sub-Saharan African countries.

“(3) The Act has helped to bring about substantial increases in foreign investment in sub-Saharan Africa, especially in the textile and apparel sectors, where tens of thousands of new jobs have been created.

“(4) As a result of the Agreement on Textiles and Apparel of the World Trade Organization, under which quotas maintained by WTO member countries on textile and apparel products end on January 1, 2005, sub-Saharan Africa’s textile and apparel industry will be severely challenged by countries whose industries are more developed and have greater capacity, economies of scale, and better infrastructure.

“(5) The underdeveloped physical and financial infrastructure in sub-Saharan Africa continues to discourage investment in the region.

“(6) Regional integration establishes a foundation on which sub-Saharan African countries can coordinate and pursue policies grounded in African interests and history to achieve sustainable development.

“(7) Expanded trade because of the Act has improved fundamental economic conditions within sub-Saharan Africa. The Act has helped to create jobs in the poorest region of the world, and most sub-Saharan African countries have sought to take advantage of the opportunities provided by the Act.

“(8) Agricultural biotechnology holds promise for helping solve global food security and human health crises in Africa and, according to recent studies, has made contributions to the protection of the environment by reducing the application of pesticides, reducing soil erosion, and creating an environment more hospitable to wildlife.

“(9) (A) One of the greatest challenges facing African countries continues to be the HIV/AIDS epidemic, which has infected as many as one out of every four people in some countries, creating tremendous social, political, and economic costs. African countries need continued United States financial and technical assistance to combat this epidemic.

“(B) More awareness and involvement by governments are necessary. Countries like Uganda, recognizing the threat of HIV/AIDS, have boldly attacked it through a combination of education, public awareness, enhanced medical infrastructure and resources, and greater access to medical treatment. An effective HIV/AIDS prevention and treatment strategy involves all of these steps.

“(10) African countries continue to need trade capacity assistance to establish viable economic capacity, a well-grounded rule of law, and efficient government practices.

“SEC. 3. STATEMENT OF POLICY.

“The Congress supports—

“(1) a continued commitment to increase trade between the United States and sub-Saharan Africa and increase investment in sub-Saharan Africa to the

benefit of workers, businesses, and farmers in the United States and in sub-Saharan Africa, including by developing innovative approaches to encourage development and investment in sub-Saharan Africa;

“(2) a reduction of tariff and nontariff barriers and other obstacles to trade between the countries of sub-Saharan Africa and the United States, with particular emphasis on reducing barriers to trade in emerging sectors of the economy that have the greatest potential for development;

“(3) development of sub-Saharan Africa’s physical and financial infrastructure;

“(4) international efforts to fight HIV/AIDS, malaria, tuberculosis, other infectious diseases, and serious public health problems;

“(5) many of the aims of the New Partnership for African Development (NEPAD), which include—

“(A) reducing poverty and increasing economic growth;

“(B) promoting peace, democracy, security, and human rights;

“(C) promoting African integration by deepening linkages between African countries and by accelerating Africa’s economic and political integration into the rest of the world;

“(D) attracting investment, debt relief, and development assistance;

“(E) promoting trade and economic diversification;

“(F) broadening global market access for United States and African exports;

“(G) improving transparency, good governance, and political accountability;

“(H) expanding access to social services, education, and health services with a high priority given to addressing HIV/AIDS, malaria, tuberculosis, other infectious diseases, and other public health problems;

“(I) promoting the role of women in social and economic development by reinforcing education and training and by assuring their participation in political and economic arenas; and

“(J) building the capacity of governments in sub-Saharan Africa to set and enforce a legal framework, as well as to enforce the rule of law;

“(6) negotiation of reciprocal trade agreements between the United States and sub-Saharan African countries, with the overall goal of expanding trade across all of sub-Saharan Africa;

“(7) the President seeking to negotiate, with interested eligible sub-Saharan African countries, bilateral trade agreements that provide investment opportunities, in accordance with section 2102(b)(3) of the Trade Act of 2002 (19 U.S.C. 3802(b)(3));

“(8) efforts by the President to negotiate with the member countries of the Southern African Customs Union in order to provide the opportunity to deepen and make permanent the benefits of the Act while giving the United States access to the markets of these African countries for United States goods and services, by reducing tariffs and non-tariff barriers, strengthening intellectual property protection, improving transparency, establishing general dispute settlement mechanisms, and investor-state and state-to-state dispute settlement mechanisms in investment;

“(9) a comprehensive and ambitious trade agreement with the Southern African Customs Union, covering all products and sectors, in order to mature the economic relationship between sub-Saharan African countries and the United States and because such an agreement would deepen United States economic and political ties to the region, lend momentum to United States development efforts, encourage greater United States investment, and promote regional integration and economic growth;

“(10) regional integration among sub-Saharan African countries and business partnerships between United States and African firms; and

“(11) economic diversification in sub-Saharan African countries and expansion of trade beyond textiles and apparel.

“SEC. 4. SENSE OF CONGRESS ON RECIPROCITY AND REGIONAL ECONOMIC INTEGRATION.

“It is the sense of the Congress that—

“(1) the preferential market access opportunities for eligible sub-Saharan African countries will be complemented and enhanced if those countries are implementing actively and fully, consistent with any remaining applicable phase-in periods, their obligations under the World Trade Organization, including obligations under the Agreement on Trade-Related Aspects of Intellectual Property, the Agreement on the Application of Sanitary and Phytosanitary Measures, and the Agreement on Trade-Related Investment Measures, as well as the other agreements described in section 101(d) of the Uruguay Round Agreements Act (19 U.S.C. 3511(d));

“(2) eligible sub-Saharan African countries should participate in and support mutual trade liberalization in ongoing negotiations under the auspices of the World Trade Organization, including by making reciprocal commitments with respect to improving market access for industrial and agricultural goods, and for services, recognizing that such commitments may need to reflect special and differential treatment for developing countries;

“(3) some of the most pernicious trade barriers against exports by developing countries are the trade barriers maintained by other developing countries; therefore, eligible sub-Saharan African countries will benefit from the reduction of trade barriers in other developing countries, especially in developing countries that represent some of the greatest potential markets for African goods and services; and

“(4) all countries should make sanitary and phytosanitary decisions on the basis of sound science.

“SEC. 5. SENSE OF CONGRESS ON INTERPRETATION OF TEXTILE AND APPAREL PROVISIONS OF AGOA.

“It is the sense of the Congress that the executive branch, particularly the Committee for the Implementation of Textile Agreements (CITA), the Bureau of Customs and Border Protection of the Department of Homeland Security, and the Department of Commerce, should interpret, implement, and enforce the provisions of section 112 of the African Growth and Opportunity Act [19 U.S.C. 3721], relating to preferential treatment of textile and apparel articles, broadly in order to expand trade by maximizing opportunities for imports of such articles from eligible sub-Saharan African countries.

“SEC. 6. DEFINITION.

“In this Act, the term ‘eligible sub-Saharan African country’ means an eligible sub-Saharan African country under the African Growth and Opportunity Act [19 U.S.C. 3701 et seq.].

“SEC. 7. EXTENSION OF AFRICAN GROWTH AND OPPORTUNITY ACT.

[Amended sections 2466a, 2466b, and 3721 of this title.]

“SEC. 8. ENTRIES OF CERTAIN APPAREL ARTICLES PURSUANT TO THE AFRICAN GROWTH AND OPPORTUNITY ACT.

“(a) IN GENERAL.—Notwithstanding section 514 of the Tariff Act of 1930 (19 U.S.C. 1514) or any other provision of law, the Secretary of the Treasury shall liquidate or reliquidate as free of duty and free of any quantitative restrictions, limitations, or consultation levels entries of articles described in subsection (d) made on or after October 1, 2000, and before the date of the enactment of this Act [July 13, 2004].

“(b) REQUESTS.—Liquidation or reliquidation may be made under subsection (a) with respect to an entry described in subsection (d) only if a request therefor is filed with the Secretary of the Treasury within 90 days after the date of the enactment of this Act and the request contains sufficient information to enable the Secretary to locate the entry or reconstruct the entry if it cannot be located.

“(c) PAYMENT OF AMOUNTS OWED.—Any amounts owed by the United States pursuant to the liquidation or reliquidation of any entry under subsection (a) shall be paid not later than 180 days after the date of such liquidation or reliquidation.

“(d) ENTRIES.—The entries referred to in subsection (a) are entries of apparel articles that meet the requirements of section 112 of the African Growth and Opportunity Act [19 U.S.C. 3721], as amended by section 3108 of the Trade Act of 2002 [Pub. L. 107-210] and this Act.

“SEC. 9. DEVELOPMENT STUDY AND CAPACITY BUILDING.

“(a) REPORTS.—The President shall, by not later than 1 year after the date of the enactment of this Act [July 13, 2004], conduct a study on each eligible sub-Saharan African country, that—

“(1) identifies sectors of the economy of that country with the greatest potential for growth, including through export sales;

“(2) identifies barriers, both domestically and internationally, that are impeding growth in such sectors; and

“(3) makes recommendations on how the United States Government and the private sector can provide technical assistance to that country to assist in dismantling such barriers and in promoting investment in such sectors.

“(b) DISSEMINATION OF INFORMATION.—The President shall disseminate information in each study conducted under subsection (a) to the appropriate United States agencies for the purpose of implementing recommendations on the provision of technical assistance and in identifying opportunities for United States investors, businesses, and farmers.

“SEC. 10. ACTIVITIES IN SUPPORT OF INFRASTRUCTURE TO SUPPORT INCREASING TRADE CAPACITY AND ECOTOURISM.

“(a) FINDINGS.—The Congress finds the following:

“(1) Ecotourism, which consists of—

“(A) responsible and sustainable travel and visitation to relatively undisturbed natural areas in order to enjoy and appreciate nature (and any accompanying cultural features, both past and present) and animals, including species that are rare or endangered,

“(B) promotion of conservation and provision for beneficial involvement of local populations, and

“(C) visitation designed to have low negative impact upon the environment, is expected to expand 30 percent globally over the next decade.

“(2) Ecotourism will increase trade capacity by sustaining otherwise unsustainable infrastructure, such as road, port, water, energy, and telecommunication development.

“(3) According to the United States Department of State and the United Nations Environment Programme, sustainable tourism, such as ecotourism, can be an important part of the economic development of a region, especially a region with natural and cultural protected areas.

“(4) Sub-Saharan Africa enjoys an international comparative advantage in ecotourism because it features extensive protected areas that host a variety of ecosystems and traditional cultures that are major attractions for nature-oriented tourism.

“(5) National parks and reserves in sub-Saharan Africa should be considered a basis for regional development, involving communities living within and adjacent to them and, given their strong international recognition, provide an advantage in ecotourism marketing and promotion.

“(6) Desert areas in sub-Saharan Africa represent complex ecotourism attractions, showcasing natural, geological, and archaeological features, and nomad and other cultures and traditions.

“(7) Many natural zones in sub-Saharan Africa cross the political borders of several countries; therefore, transboundary cooperation is fundamental for all types of ecotourism development.

“(8) The commercial viability of ecotourism is enhanced when small and medium enterprises, particularly microenterprises, successfully engage with the tourism industry in sub-Saharan Africa.

“(9) Adequate capacity building is an essential component of ecotourism development if local communities are to be real stakeholders that can sustain an equitable approach to ecotourism management.

“(10) Ecotourism needs to generate local community benefits by utilizing sub-Saharan Africa’s natural heritage, parks, wildlife reserves, and other protected areas that can play a significant role in encouraging local economic development by sourcing food and other locally produced resources.

“(b) ACTION BY THE PRESIDENT.—The President shall develop and implement policies to—

“(1) encourage the development of infrastructure projects that will help to increase trade capacity and a sustainable ecotourism industry in eligible sub-Saharan African countries;

“(2) encourage and facilitate transboundary cooperation among sub-Saharan African countries in order to facilitate trade;

“(3) encourage the provision of technical assistance to eligible sub-Saharan African countries to establish and sustain adequate trade capacity development; and

“(4) encourage micro-, small-, and medium-sized enterprises in eligible sub-Saharan African countries to participate in the ecotourism industry.

“SEC. 11. ACTIVITIES IN SUPPORT OF TRANSPORTATION, ENERGY, AGRICULTURE, AND TELECOMMUNICATIONS INFRASTRUCTURE.

“(a) FINDINGS.—The Congress finds the following:

“(1) In order to increase exports from, and trade among, eligible sub-Saharan African countries, transportation systems in those countries must be improved to increase transport efficiencies and lower transport costs.

“(2) Vibrant economic growth requires a developed telecommunication and energy infrastructure.

“(3) Sub-Saharan Africa is rich in exportable agricultural goods, but development of this industry remains stymied because of an underdeveloped infrastructure.

“(b) ACTION BY THE PRESIDENT.—In order to enhance trade with Africa and to bring the benefits of trade to African countries, the President shall develop and implement policies to encourage investment in eligible sub-Saharan African countries, particularly with respect to the following:

“(1) Infrastructure projects that support, in particular, development of land transport road and railroad networks and ports, and the continued upgrading and liberalization of the energy and telecommunications sectors.

“(2) The establishment and expansion of modern information and communication technologies and practices to improve the ability of citizens to research and disseminate information relating to, among other things, the economy, education, trade, health, agriculture, the environment, and the media.

“(3) Agriculture, particularly in processing and capacity enhancement.

“SEC. 12. FACILITATION OF TRANSPORTATION.

“In order to facilitate and increase trade flows between eligible sub-Saharan African countries and the United States, the President shall foster improved port-to-port and airport-to-airport relationships. These relationships should facilitate—

“(1) increased coordination between customs services at ports and airports in the United States and such countries in order to reduce time in transit;

“(2) interaction between customs and technical staff from ports and airports in the United States and such countries in order to increase efficiency and safety procedures and protocols relating to trade;

“(3) coordination between chambers of commerce, freight forwarders, customs brokers, and others involved in consolidating and moving freight; and

“(4) trade through air service between airports in the United States and such countries by increasing frequency and capacity.

“SEC. 13. AGRICULTURAL TECHNICAL ASSISTANCE.

“(a) IDENTIFICATION OF COUNTRIES.—The President shall identify not fewer than 10 eligible sub-Saharan African countries as having the greatest potential to increase marketable exports of agricultural products to the United States and the greatest need for technical assistance, particularly with respect to pest risk assessments and complying with sanitary and phytosanitary rules of the United States.

“(b) PERSONNEL.—The President shall assign at least 20 full-time personnel for the purpose of providing assistance to the countries identified under subsection (a) to ensure that exports of agricultural products from those countries meet the requirements of United States law.

“SEC. 14. TRADE ADVISORY COMMITTEE ON AFRICA.

“The President shall convene the trade advisory committee on Africa established by Executive Order 11846 of March 27, 1975 [19 U.S.C. 2111 note], under section 135(c) of the Trade Act of 1974 [19 U.S.C. 2155(c)], in order to facilitate the goals and objectives of the African Growth and Opportunity Act [19 U.S.C. 3701 et seq.] and this Act, and to maintain ongoing discussions with African trade and agriculture ministries and private sector organizations on issues of mutual concern, including regional and international trade concerns and World Trade Organization issues.”

[Pub. L. 108-429, title II, §2004(j)(2), Dec. 3, 2004, 118 Stat. 2595, provided that:

“[(A) IN GENERAL.—The amendment made by paragraph (1) [amending Pub. L. 108-274, set out above] shall take effect as if included in the enactment of section 8 of the AGOA Acceleration Act of 2004 [Pub. L. 108-274].

“[(B) REQUESTS FOR RETROACTIVE APPLICATION.—Section 8(b) of the AGOA Acceleration Act of 2004 shall be applied with respect to the amendment made by paragraph (1) by substituting ‘90 days after the date of the enactment of the Miscellaneous Trade and Technical Corrections Act of 2004 [Dec. 3, 2004]’ for ‘90 days after the date of the enactment of this Act’.”]

§ 3702. Statement of policy

Congress supports—

(1) encouraging increased trade and investment between the United States and sub-Saharan Africa;

(2) reducing tariff and nontariff barriers and other obstacles to sub-Saharan African and United States trade;

(3) expanding United States assistance to sub-Saharan Africa’s regional integration efforts;

(4) negotiating reciprocal and mutually beneficial trade agreements, including the possibility of establishing free trade areas that serve the interests of both the United States and the countries of sub-Saharan Africa;

(b) Products covered

Subject to subsection (c), the preferential treatment described in subsection (a) of this section shall apply only to the following textile and apparel products:

(1) Apparel articles assembled in one or more beneficiary sub-Saharan African countries

Apparel articles sewn or otherwise assembled in one or more beneficiary sub-Saharan African countries from fabrics wholly formed and cut, or from components knit-to-shape, in the United States from yarns wholly formed in the United States, or both (including fabrics not formed from yarns, if such fabrics are classifiable under heading 5602 or 5603 of the Harmonized Tariff Schedule of the United States and are wholly formed and cut in the United States) that are—

(A) entered under subheading 9802.00.80 of the Harmonized Tariff Schedule of the United States; or

(B) entered under chapter 61 or 62 of the Harmonized Tariff Schedule of the United States, if, after such assembly, the articles would have qualified for entry under subheading 9802.00.80 of the Harmonized Tariff Schedule of the United States but for the fact that the articles were embroidered or subjected to stone-washing, enzyme-washing, acid washing, perma-pressing, oven-baking, bleaching, garment-dyeing, screen printing, or other similar processes.

(2) Other apparel articles assembled in one or more beneficiary sub-Saharan African countries

Apparel articles sewn or otherwise assembled in one or more beneficiary sub-Saharan African countries with thread formed in the United States from fabrics wholly formed in the United States and cut in one or more beneficiary sub-Saharan African countries from yarns wholly formed in the United States, or from components knit-to-shape in the United States from yarns wholly formed in the United States, or both (including fabrics not formed from yarns, if such fabrics are classifiable under heading 5602 or 5603 of the Harmonized Tariff Schedule of the United States and are wholly formed in the United States).

(3) Apparel articles from regional fabric or yarns

Apparel articles wholly assembled in one or more beneficiary sub-Saharan African countries from fabric wholly formed in one or more beneficiary sub-Saharan African countries from yarns originating in the United States or one or more beneficiary sub-Saharan African countries or former beneficiary sub-Saharan African countries, or both (including fabrics not formed from yarns, if such fabrics are classified under heading 5602 or 5603 of the Harmonized Tariff Schedule of the United States and are wholly formed in one or more beneficiary sub-Saharan African countries), or from components knit-to-shape in one or more beneficiary sub-Saharan African countries from yarns originating in the United States or one or more beneficiary sub-Saharan African countries or former beneficiary sub-Saharan

African countries, or both, or apparel articles wholly formed on seamless knitting machines in a beneficiary sub-Saharan African country from yarns originating in the United States or one or more beneficiary sub-Saharan African countries or former beneficiary sub-Saharan African countries, or both, whether or not the apparel articles are also made from any of the fabrics, fabric components formed, or components knit-to-shape described in paragraph (1) or (2) (unless the apparel articles are made exclusively from any of the fabrics, fabric components formed, or components knit-to-shape described in paragraph (1) or (2)), subject to the following:

(A) Limitations on benefits**(i) In general**

Preferential treatment under this paragraph shall be extended in the 1-year period beginning October 1, 2003, and in each of the 11 succeeding 1-year periods, to imports of apparel articles in an amount not to exceed the applicable percentage of the aggregate square meter equivalents of all apparel articles imported into the United States in the preceding 12-month period for which data are available.

(ii) Applicable percentage

For purposes of this subparagraph, the term “applicable percentage” means—

(I) 4.747 percent for the 1-year period beginning October 1, 2003, increased in each of the 5 succeeding 1-year periods by equal increments, so that for the 1-year period beginning October 1, 2007, the applicable percentage does not exceed 7 percent; and

(II) for each succeeding 1-year period until September 30, 2015, not to exceed 7 percent.

(B) Surge mechanism**(i) Import monitoring**

The Secretary of Commerce shall monitor imports of articles described in this paragraph on a monthly basis to determine if there has been a surge in imports of such articles. In order to permit public access to preliminary international trade data and to facilitate the early identification of potentially disruptive import surges, the Director of the Office of Management and Budget may grant an exception to the publication dates established for the release of data on United States international trade in covered articles, if the Director notifies Congress of the early release of the data.

(ii) Determination of damage or threat thereof

Whenever the Secretary of Commerce determines, based on the data described in clause (i), or pursuant to a written request made by an interested party, that there has been a surge in imports of an article described in this paragraph from a beneficiary sub-Saharan African country, the Secretary shall determine whether such article from such country is being imported in such increased quantities as to

cause serious damage, or threat thereof, to the domestic industry producing a like or directly competitive article. If the Secretary's determination is affirmative, the President shall suspend the duty-free treatment provided for such article under this paragraph. If the inquiry is initiated at the request of an interested party, the Secretary shall make the determination within 60 days after the date of the request.

(iii) Factors to consider

In determining whether a domestic industry has been seriously damaged, or is threatened with serious damage, the Secretary shall examine the effect of the imports on relevant economic indicators such as domestic production, sales, market share, capacity utilization, inventories, employment, profits, exports, prices, and investment.

(iv) Procedure

(I) Initiation

The Secretary of Commerce shall initiate an inquiry within 10 days after receiving a written request and supporting information for an inquiry from an interested party. Notice of initiation of an inquiry shall be published in the Federal Register.

(II) Participation by interested parties

The Secretary of Commerce shall establish procedures to ensure participation in the inquiry by interested parties.

(III) Notice of determination

The Secretary shall publish the determination described in clause (ii) in the Federal Register.

(IV) Information available

If relevant information is not available on the record or any party withholds information that has been requested by the Secretary, the Secretary shall make the determination on the basis of the facts available. When the Secretary relies on information submitted in the inquiry as facts available, the Secretary shall, to the extent practicable, corroborate the information from independent sources that are reasonably available to the Secretary.

(v) Interested party

For purposes of this subparagraph, the term "interested party" means any producer of a like or directly competitive article, a certified union or recognized union or group of workers which is representative of an industry engaged in the manufacture, production, or sale in the United States of a like or directly competitive article, a trade or business association representing producers or sellers of like or directly competitive articles, producers engaged in the production of essential inputs for like or directly competitive articles, a certified union or group of workers which is representative of an industry engaged in

the manufacture, production, or sale of essential inputs for the like or directly competitive article, or a trade or business association representing companies engaged in the manufacture, production, or sale of such essential inputs.

(A) In general

Apparel articles that are both cut (or knit-to-shape) and sewn or otherwise assembled in one or more beneficiary sub-Saharan African countries, to the extent that apparel articles of such fabrics or yarns would be eligible for preferential treatment, without regard to the source of the fabrics or yarns, under Annex 401 to the NAFTA.

(B) Additional apparel articles

At the request of any interested party and subject to the following requirements, the President is authorized to proclaim the treatment provided under subparagraph (A) for yarns or fabrics not described in subparagraph (A) if—

(i) the President determines that such yarns or fabrics cannot be supplied by the domestic industry in commercial quantities in a timely manner;

(ii) the President has obtained advice regarding the proposed action from the appropriate advisory committee established under section 2155 of this title and the United States International Trade Commission;

(iii) within 60 calendar days after the request, the President has submitted a report to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate that sets forth—

(I) the action proposed to be proclaimed and the reasons for such action; and

(II) the advice obtained under clause (ii);

(iv) a period of 60 calendar days, beginning with the first day on which the President has met the requirements of subclauses (I) and (II) of clause (iii), has expired; and

(v) the President has consulted with such committees regarding the proposed action during the period referred to in clause (iii).

(C) Removal of designation of fabrics or yarns not available in commercial quantities

If the President determines that any fabric or yarn was determined to be eligible for preferential treatment under subparagraph (A) on the basis of fraud, the President is authorized to remove that designation from that fabric or yarn with respect to articles entered after such removal.

States, or from components knit-to-shape in the United States and one or more beneficiary sub-Saharan African countries or former beneficiary sub-Saharan African countries from yarns wholly formed in the United States, or both (including fabrics not formed from yarns, if such fabrics are classifiable under heading 5602 or 5603 of the Harmonized Tariff Schedule of the United States).

(8) Textile articles originating entirely in one or more lesser developed beneficiary sub-Saharan African countries

(2) Special rules for products in commercial quantities in Africa

(A) Petition process

Upon a petition filed by an interested party (which may include a foreign manufacturer), the Commission shall determine whether a fabric or yarn produced in beneficiary sub-Saharan African countries is available in commercial quantities for use by lesser developed beneficiary sub-Saharan African countries.

If the Commission determines under subparagraph (A) that a fabric or yarn produced in beneficiary sub-Saharan African countries is available in commercial quan-

¹ So in original. Probably should be “ethnic”.

tities for use by lesser developed beneficiary sub-Saharan African countries, the Commission shall determine the quantity of the fabric or yarn that will be so available in lesser developed beneficiary sub-Saharan African countries in the applicable 1-year period beginning after the determination is made.

(ii) Determinations

In each case in which the Commission determines that a fabric or yarn is available in commercial quantities under subparagraph (A) for an applicable 1-year period, the Commission shall determine, before the end of that applicable 1-year period—

(I) whether the fabric or yarn produced in beneficiary sub-Saharan African countries will be available in commercial quantities in the succeeding applicable 1-year period; and

To the extent that the quantity so determined was not so used, then the Commission shall add to the quantity of that fabric or yarn determined to be available in the next applicable 1-year period the quantity not so used in the preceding applicable 1-year period.

(C) Denim

Denim articles provided for in subheading 5209.42.00 of the Harmonized Tariff Schedule of the United States shall be deemed to have been determined to be in abundant supply under subparagraph (A) in an amount of 30,000,000 square meter equivalents for the 1-year period beginning October 1, 2006.

(D) Presidential authority to restrict imports

(i) In general

Subject to clause (ii), the President may by proclamation provide that apparel articles otherwise eligible for preferential treatment under paragraph (1) that contain a fabric or yarn determined to be available in commercial quantities under subparagraph (A) may not receive such preferential treatment in an applicable 1-year period unless—

(I) the fabric or yarn in such articles was produced in 1 or more beneficiary sub-Saharan African countries; or

(II) the Commission has determined that the quantity of the fabric or yarn

determined under subparagraph (B) (or (C), as the case may be) to be available in lesser developed beneficiary sub-Saharan African countries for that applicable 1-year period has already been used in the production of apparel articles receiving preferential treatment under paragraph (1) that were entered in that applicable 1-year period.

(ii) Mandatory restriction

If a fabric or yarn is determined to be available in commercial quantities under subparagraph (A) in an applicable 1-year period, and for 2 consecutive applicable 1-year periods the quantities determined to be so available are not used in the production of apparel articles receiving preferential treatment under paragraph (1) that were entered during those 2 applicable 1-year periods, then beginning in the succeeding applicable 1-year period, apparel articles containing that fabric or yarn are ineligible for preferential treatment under paragraph (1) in any succeeding applicable 1-year period unless the Commission has determined that the quantity of the fabric or yarn determined under subparagraph (B) (or (C), as the case may be) to be available in lesser developed beneficiary sub-Saharan African countries for that applicable 1-year period has already been used in the production of apparel articles receiving preferential treatment under paragraph (1) that were entered in that applicable 1-year period.

(E) Procedures

The Commission shall use the procedures prescribed in subsection (b)(3)(C)(iv) for the Secretary of Commerce in making determinations under this paragraph.

If the President determines that—

(A) any fabric or yarn described in paragraph (2)(A) was determined to be eligible for preferential treatment, or

(B) any fabric or yarn described in paragraph (2)(B) was designated as not being available in commercial quantities,

on the basis of fraud, the President may remove the eligibility or designation (as the case may be) of that fabric or yarn with respect to articles entered after such removal.

(4) Applicability of other provisions

Subsection (b)(3)(C) applies to apparel articles eligible for preferential treatment under this subsection to the same extent as that subsection applies to apparel articles eligible for preferential treatment under subsection (b)(3).

(1) In general

The preferential treatment under section 3721(a) of this title shall not be provided to textile and apparel articles that are imported from a beneficiary sub-Saharan African country unless that country—

Service, documentation establishing the country of origin of covered articles as used by that country in implementing an effective visa system.

(2) Country of origin documentation

For purposes of paragraph (1)(F), documentation regarding the country of origin of the covered articles includes documentation such as production records, information relating to the place of production, the number and identification of the types of machinery used in production, the number of workers employed in production, and certification from both the manufacturer and the exporter.

(b) Customs procedures and enforcement

(1) In general

(A) Regulations

Any importer that claims preferential treatment under section 3721 of this title shall comply with customs procedures similar in all material respects to the requirements of Article 502(1) of the NAFTA as implemented pursuant to United States law, in accordance with regulations promulgated by the Secretary of the Treasury.

(B) Determination

(i) In general

In order to qualify for the preferential treatment under section 3721 of this title and for a Certificate of Origin to be valid with respect to any article for which such treatment is claimed, there shall be in effect a determination by the President that each country described in clause (ii)—

(I) has implemented and follows; or

(II) is making substantial progress toward implementing and following,

procedures and requirements similar in all material respects to the relevant procedures and requirements under chapter 5 of the NAFTA.

(ii) Country described

A country is described in this clause if it is a beneficiary sub-Saharan African country—

(I) from which the article is exported; or

(II) in which materials used in the production of the article originate or in which the article or such materials, undergo production that contributes to a claim that the article is eligible for preferential treatment.

(2) Certificate of Origin

The Certificate of Origin that otherwise would be required pursuant to the provisions of paragraph (1) shall not be required in the case of an article imported under section 3721 of this title if such Certificate of Origin would not be required under Article 503 of the NAFTA (as implemented pursuant to United States law), if the article were imported from Mexico.

If the President determines, based on sufficient evidence, that an exporter has engaged

in transshipment as defined in paragraph (4), then the President shall deny for a period of 5 years all benefits under section 3721 of this title to such exporter, any successor of such exporter, and any other entity owned or operated by the principal of the exporter.

(4) Transshipment described

Transshipment within the meaning of this subsection has occurred when preferential treatment for a textile or apparel article under this chapter¹ has been claimed on the basis of material false information concerning the country of origin, manufacture, processing, or assembly of the article or any of its components. For purposes of this paragraph, false information is material if disclosure of the true information would mean or would have meant that the article is or was ineligible for preferential treatment under section 3721 of this title.

(5) Monitoring and reports to Congress

The Customs Service shall monitor and the Commissioner of Customs shall submit to Congress, not later than March 31 of each year, a report on the effectiveness of the visa systems and the implementation of legislation and regulations described in subsection (a) of this section and on measures taken by countries in sub-Saharan Africa which export textiles or apparel to the United States to prevent circumvention as described in Article 5 of the Agreement on Textiles and Clothing.

It is the sense of the Congress that—

(1) the position of Assistant United States Trade Representative for African Affairs is integral to the United States commitment to increasing United States-sub-Saharan African trade and investment;

SUBCHAPTER III—ECONOMIC
DEVELOPMENT RELATED ISSUES

§ 3731. Sense of the Congress regarding comprehensive debt relief for the world's poorest countries

(a) Findings

Congress makes the following findings:

(1) The burden of external debt has become a major impediment to economic growth and poverty reduction in many of the world's poorest countries.

(2) Until recently, the United States Government and other official creditors sought to address this problem by rescheduling loans and in some cases providing limited debt reduction.

(3) Despite such efforts, the cumulative debt of many of the world's poorest countries continued to grow beyond their capacity to repay.

(4) In 1997, the Group of Seven, the World Bank, and the International Monetary Fund adopted the Heavily Indebted Poor Countries Initiative (HIPC), a commitment by the international community that all multilateral and bilateral creditors, acting in a coordinated and concerted fashion, would reduce poor country debt to a sustainable level.

(5) The HIPC Initiative is currently undergoing reforms to address concerns raised about country conditionality, the amount of debt forgiven, and the allocation of savings realized through the debt forgiveness program to ensure that the Initiative accomplishes the goals of economic growth and poverty alleviation in the world's poorest countries.

(b) Sense of the Congress

It is the sense of the Congress that—

(1) Congress and the President should work together, without undue delay and in concert with the international community, to make comprehensive debt relief available to the world's poorest countries in a manner that promotes economic growth and poverty alleviation;

(2) this program of bilateral and multilateral debt relief should be designed to strengthen and expand the private sector, encourage increased trade and investment, support the development of free markets, and promote broad-scale economic growth in beneficiary countries;

(3) this program of debt relief should also support the adoption of policies to alleviate poverty and to ensure that benefits are shared widely among the population, such as through initiatives to advance education, improve health, combat AIDS, and promote clean water and environmental protection;

(4) these debt relief agreements should be designed and implemented in a transparent manner and with the broad participation of the citizenry of the debtor country and should ensure that country circumstances are adequately taken into account;

(5) no country should receive the benefits of debt relief if that country does not cooperate with the United States on terrorism or narcotics enforcement, is a gross violator of the human rights of its citizens, or is engaged in

conflict or spends excessively on its military; and

(6) in order to prevent adverse impact on a key industry in many developing countries, the International Monetary Fund must mobilize its own resources for providing debt relief to eligible countries without allowing gold to reach the open market, or otherwise adversely affecting the market price of gold.

(Pub. L. 106-200, title I, §121, May 18, 2000, 114 Stat. 267.)

§ 3732. Executive branch initiatives

(a) Statement of the Congress

The Congress recognizes that the stated policy of the executive branch in 1997, the "Partnership for Growth and Opportunity in Africa" initiative, is a step toward the establishment of a comprehensive trade and development policy for sub-Saharan Africa. It is the sense of the Congress that this Partnership is a companion to the policy goals set forth in this chapter.

(b) Technical assistance to promote economic reforms and development

In addition to continuing bilateral and multilateral economic and development assistance, the President shall target technical assistance toward—

(1) developing relationships between United States firms and firms in sub-Saharan Africa through a variety of business associations and networks;

(2) providing assistance to the governments of sub-Saharan African countries to—

(A) liberalize trade and promote exports;

(B) bring their legal regimes into compliance with the standards of the World Trade Organization in conjunction with membership in that Organization;

(C) make financial and fiscal reforms; and

(D) promote greater agribusiness linkages;

(3) addressing such critical agricultural policy issues as market liberalization, agricultural export development, and agribusiness investment in processing and transporting agricultural commodities;

(4) increasing the number of reverse trade missions to growth-oriented countries in sub-Saharan Africa;

(5) increasing trade in services; and

(6) encouraging greater sub-Saharan African participation in future negotiations in the World Trade Organization on services and making further commitments in their schedules to the General Agreement on Trade in Services in order to encourage the removal of tariff and nontariff barriers.

§ 3733. Overseas Private Investment Corporation initiatives

(a) Initiation of funds

It is the sense of the Congress that the Overseas Private Investment Corporation should exercise the authorities it has to initiate an equity fund or equity funds in support of projects in the countries in sub-Saharan Africa, in addition to the existing equity fund for sub-Saharan Africa created by the Corporation.

(b) Structure and types of funds

(1) Structure

Each fund initiated under subsection (a) of this section should be structured as a partnership managed by professional private sector fund managers and monitored on a continuing basis by the Corporation.

(2) Capitalization

Each fund should be capitalized with a combination of private equity capital, which is not guaranteed by the Corporation, and debt for which the Corporation provides guaranties.

(3) Infrastructure fund

One or more of the funds, with combined assets of up to \$500,000,000, should be used in support of infrastructure projects in countries of sub-Saharan Africa.

(4) Emphasis

The Corporation shall ensure that the funds are used to provide support in particular to women entrepreneurs and to innovative investments that expand opportunities for women and maximize employment opportunities for poor individuals.

(c) Overseas Private Investment Corporation

(1) Omitted

(2) Reports to Congress

Within 6 months after May 18, 2000, and annually for each of the 4 years thereafter, the Board of Directors of the Overseas Private Investment Corporation shall submit to Congress a report on the steps that the Board has taken to implement section 2193(e) of title 22 and any recommendations of the investment advisory council established pursuant to such section.

(Pub. L. 106-200, title I, §123, May 18, 2000, 114 Stat. 269.)

CODIFICATION

Section is comprised of section 123 of Pub. L. 106-200. Subsec. (c)(1) of section 123 of Pub. L. 106-200 amended section 2193 of Title 22, Foreign Relations and Inter-course.

§ 3734. Export-Import Bank initiatives

(a) Sense of the Congress

It is the sense of the Congress that the Board of Directors of the Bank shall continue to take comprehensive measures, consistent with the credit standards otherwise required by law, to promote the expansion of the Bank's financial commitments in sub-Saharan Africa under the loan, guarantee and insurance programs of the Bank.

(b) Sub-Saharan Africa Advisory Committee

The sub-Saharan Africa Advisory Committee (SAAC) is to be commended for aiding the Bank in advancing the economic partnership between the United States and the nations of sub-Saharan Africa by doubling the number of sub-Saharan African countries in which the Bank is open for traditional financing and by increasing by tenfold the Bank's support for sales to sub-Saharan Africa from fiscal year 1998 to fiscal year 1999. The Board of Directors of the Bank and its staff shall continue to review carefully the sub-Saharan Africa Advisory Committee recommendations on the development and implementation of new and innovative policies and programs designed to promote the Bank's expansion in sub-Saharan Africa.

(Pub. L. 106-200, title I, §124, May 18, 2000, 114 Stat. 270.)

§ 3735. Expansion of the United States and Foreign Commercial Service in sub-Saharan Africa

(a) Findings

The Congress makes the following findings:

(1) The United States and Foreign Commercial Service (hereafter in this section referred to as the "Commercial Service") plays an important role in helping United States businesses identify export opportunities and develop reliable sources of information on commercial prospects in foreign countries.

(2) During the 1980s, the presence of the Commercial Service in sub-Saharan Africa consisted of 14 professionals providing services in eight countries. By early 1997, that presence had been reduced by half to seven professionals in only four countries.

(3) Since 1997, the Department of Commerce has slowly begun to increase the presence of the Commercial Service in sub-Saharan Africa, adding five full-time officers to established posts.

(4) Although the Commercial Service Officers in these countries have regional responsibilities, this kind of coverage does not adequately service the needs of United States businesses attempting to do business in sub-Saharan Africa.

(5) The Congress has, on several occasions, encouraged the Commercial Service to focus its resources and efforts in countries or regions in Europe or Asia to promote greater United States export activity in those markets, and similar encouragement should be provided for countries in sub-Saharan Africa as well.

(6) Because market information is not widely available in many sub-Saharan African countries, the presence of additional Commercial Service Officers and resources can play a significant role in assisting United States businesses in markets in those countries.

(b) Appointments

Subject to the availability of appropriations, by not later than December 31, 2001, the Secretary of Commerce, acting through the Assistant Secretary of Commerce and Director General of the United States and Foreign Commercial Service, shall take steps to ensure that—

(1) at least 20 full-time Commercial Service employees are stationed in sub-Saharan Africa; and

(2) full-time Commercial Service employees are stationed in not less than 10 different sub-Saharan African countries.

(c) Initiative for sub-Saharan Africa

In order to encourage the export of United States goods and services to sub-Saharan African countries, the International Trade Administration shall make a special effort to—

(1) identify United States goods and services which are the best prospects for export by United States companies to sub-Saharan Africa;

(2) identify, where appropriate, tariff and nontariff barriers that are preventing or hindering sales of United States goods and services to, or the operation of United States companies in, sub-Saharan Africa;

(3) hold discussions with appropriate authorities in sub-Saharan Africa on the matters described in paragraphs (1) and (2) with a view to securing increased market access for United States exporters of goods and services;

(4) identify current resource allocations and personnel levels in sub-Saharan Africa for the Commercial Service and consider plans for the deployment of additional resources or personnel to that region; and

(5) make available to the public, through printed and electronic means of communication, the information derived pursuant to paragraphs (1) through (4) for each of the 4 years after May 18, 2000.

(Pub. L. 106–200, title I, §125, May 18, 2000, 114 Stat. 270.)

§ 3736. Donation of air traffic control equipment to eligible sub-Saharan African countries

It is the sense of the Congress that, to the extent appropriate, the United States Government should make every effort to donate to governments of sub-Saharan African countries determined to be eligible under section 3703 of this title air traffic control equipment that is no longer in use, including appropriate related reimbursable technical assistance.

(Pub. L. 106–200, title I, §126, May 18, 2000, 114 Stat. 271.)

§ 3737. Additional authorities and increased flexibility to provide assistance under the Development Fund for Africa

(a) Use of sustainable development assistance to support further economic growth

It is the sense of the Congress that sustained economic growth in sub-Saharan Africa depends in large measure upon the development of a receptive environment for trade and investment, and that to achieve this objective the United States Agency for International Development should continue to support programs which help to create this environment. Investments in human resources, development, and implementation of free market policies, including policies to liberalize agricultural markets and improve food security, and the support for the rule of law

and democratic governance should continue to be encouraged and enhanced on a bilateral and regional basis.

(b) Declarations of policy

The Congress makes the following declarations:

(1) The Development Fund for Africa established under chapter 10 of part I of the Foreign Assistance Act of 1961 (22 U.S.C. 2293 et seq.) has been an effective tool in providing development assistance to sub-Saharan Africa since 1988.

(2) The Development Fund for Africa will complement the other provisions of this chapter and lay a foundation for increased trade and investment opportunities between the United States and sub-Saharan Africa.

(3) Assistance provided through the Development Fund for Africa will continue to support programs and activities that promote the long term economic development of sub-Saharan Africa, such as programs and activities relating to the following:

(A) Strengthening primary and vocational education systems, especially the acquisition of middle-level technical skills for operating modern private businesses and the introduction of college level business education, including the study of international business, finance, and stock exchanges.

(B) Strengthening health care systems.

(C) Supporting democratization, good governance and civil society and conflict resolution efforts.

(D) Increasing food security by promoting the expansion of agricultural and agriculture-based industrial production and productivity and increasing real incomes for poor individuals.

(E) Promoting an enabling environment for private sector-led growth through sustained economic reform, privatization programs, and market-led economic activities.

(F) Promoting decentralization and local participation in the development process, especially linking the rural production sectors and the industrial and market centers throughout Africa.

(G) Increasing the technical and managerial capacity of sub-Saharan African individuals to manage the economy of sub-Saharan Africa.

(H) Ensuring sustainable economic growth through environmental protection.

(4) The African Development Foundation has a unique congressional mandate to empower the poor to participate fully in development and to increase opportunities for gainful employment, poverty alleviation, and more equitable income distribution in sub-Saharan Africa. The African Development Foundation has worked successfully to enhance the role of women as agents of change, strengthen the informal sector with an emphasis on supporting micro and small sized enterprises, indigenous technologies, and mobilizing local financing. The African Development Foundation should develop and implement strategies for promoting participation in the socioeconomic development process of grassroots and informal sec-

tor groups such as nongovernmental organizations, cooperatives, artisans, and traders into the programs and initiatives established under this chapter.

§ 3738. Assistance from United States private sector to prevent and reduce HIV/AIDS in sub-Saharan Africa

It is the sense of the Congress that United States businesses should be encouraged to provide assistance to sub-Saharan African countries to prevent and reduce the incidence of HIV/AIDS in sub-Saharan Africa. In providing such assistance, United States businesses should be encouraged to consider the establishment of an HIV/AIDS Response Fund in order to provide for coordination among such businesses in the collection and distribution of the assistance to sub-Saharan African countries.

§ 3739. Sense of the Congress relating to HIV/AIDS crisis in sub-Saharan Africa

(a) Findings

The Congress finds the following:

(1) Sustained economic development in sub-Saharan Africa depends in large measure upon successful trade with and foreign assistance to the countries of sub-Saharan Africa.

(2) The HIV/AIDS crisis has reached epidemic proportions in sub-Saharan Africa, where more than 21,000,000 men, women, and children are infected with HIV.

(3) Eighty-three percent of the estimated 11,700,000 deaths from HIV/AIDS worldwide have been in sub-Saharan Africa.

(4) The HIV/AIDS crisis in sub-Saharan Africa is weakening the structure of families and societies.

(5)(A) The HIV/AIDS crisis threatens the future of the workforce in sub-Saharan Africa.

(B) Studies show that HIV/AIDS in sub-Saharan Africa most severely affects individuals between the ages of 15 and 49—the age group that provides the most support for the economies of sub-Saharan African countries.

(6) Clear evidence demonstrates that HIV/AIDS is destructive to the economies of sub-Saharan African countries.

(7) Sustained economic development is critical to creating the public and private sector

resources in sub-Saharan Africa necessary to fight the HIV/AIDS epidemic.

(b) Sense of the Congress

It is the sense of the Congress that—

(1) addressing the HIV/AIDS crisis in sub-Saharan Africa should be a central component of United States foreign policy with respect to sub-Saharan Africa;

(2) significant progress needs to be made in preventing and treating HIV/AIDS in sub-Saharan Africa in order to sustain a mutually beneficial trade relationship between the United States and sub-Saharan African countries; and

(3) the HIV/AIDS crisis in sub-Saharan Africa is a global threat that merits further attention through greatly expanded public, private, and joint public-private efforts, and through appropriate United States legislation.

§ 3741. Sense of the Congress regarding efforts to combat desertification in Africa and other countries

(a) Findings

The Congress finds that—

(1) desertification affects approximately one-sixth of the world's population and one-quarter of the total land area;

(2) over 1,000,000 hectares of Africa are affected by desertification;

(3) dryland degradation is an underlying cause of recurrent famine in Africa;

(4) the United Nations Environment Programme estimates that desertification costs the world \$42,000,000,000 a year, not including incalculable costs in human suffering; and

(5) the United States can strengthen its partnerships throughout Africa and other countries affected by desertification, help alleviate social and economic crises caused by misuse of natural resources, and reduce dependence on foreign aid, by taking a leading role to combat desertification.

(b) Sense of the Congress

It is the sense of the Congress that the United States should expeditiously work with the international community, particularly Africa and other countries affected by desertification, to—

(1) strengthen international cooperation to combat desertification;

(3) develop and implement national action programs that identify the causes of desertification and measures to address it; and

§ 3801. Short title and findings

(a) Short title

This chapter may be cited as the “Bipartisan Trade Promotion Authority Act of 2002”.

(b) Findings

The Congress makes the following findings:

(1) The expansion of international trade is vital to the national security of the United States. Trade is critical to the economic growth and strength of the United States and to its leadership in the world. Stable trading relationships promote security and prosperity. Trade agreements today serve the same purposes that security pacts played during the Cold War, binding nations together through a series of mutual rights and obligations. Lead-

ership by the United States in international trade fosters open markets, democracy, and peace throughout the world.

(2) The national security of the United States depends on its economic security, which in turn is founded upon a vibrant and growing industrial base. Trade expansion has been the engine of economic growth. Trade agreements maximize opportunities for the critical sectors and building blocks of the economy of the United States, such as information technology, telecommunications and other leading technologies, basic industries, capital equipment, medical equipment, services, agriculture, environmental technology, and intellectual property. Trade will create new opportunities for the United States and preserve the unparalleled strength of the United States in economic, political, and military affairs. The United States, secured by expanding trade and economic opportunities, will meet the challenges of the twenty-first century.

(3) Support for continued trade expansion requires that dispute settlement procedures under international trade agreements not add to or diminish the rights and obligations provided in such agreements. Therefore—

(A) the recent pattern of decisions by dispute settlement panels of the WTO and the Appellate Body to impose obligations and restrictions on the use of antidumping, countervailing, and safeguard measures by WTO members under the Antidumping Agreement, the Agreement on Subsidies and Countervailing Measures, and the Agreement on Safeguards has raised concerns; and

(B) the Congress is concerned that dispute settlement panels of the WTO and the Appellate Body appropriately apply the standard of review contained in Article 17.6 of the Antidumping Agreement, to provide deference to a permissible interpretation by a WTO member of provisions of that Agreement, and to the evaluation by a WTO member of the facts where that evaluation is unbiased and objective and the establishment of the facts is proper.
